The Crime of the Century!

\$500,000 FURNITURE LIQUIDATION SELL-OFF!

This has been a challenging time for our nation's economy. Many furniture retailers in our area have closed their doors and many leading manufacturers are struggling to sell furniture. Several of those manufacturers have come to us and asked us to carry their merchandise from the closed stores. Plus, several of our current manufacturers have asked us to take more furniture and mattresses and have offered some amazing specials. In order to make room for the new furniture arriving soon we have been forced to mark down every single item in our store.
